Humidifier Service (at same time as HVAC service)	\$ 60	_____
Other _____	\$	_____

Under program, KCC will perform one complete servicing of heating system and one complete servicing of cooling system during coverage period.

Filters to be furnished by homeowner unless otherwise indicated. KCC recommends use of Filter Fetch program under which filters will be shipped directly to homeowner to assure proper size and availability when service is performed. KCC Technician can set this up on behalf of homeowner.

If breakdown occurs, and service is performed during normal working hours, the KCC Energy Savings Maintenance Plan customer will pay NO LABOR CHARGE. This customer will also receive a ten percent (10%) discount off normal parts pricing if parts are used.

Under this program, *regardless of the amount of time required for the repair*, our customer pays NO LABOR and receives a 10% discount off of parts used. If no parts are used, this customer would pay nothing! This provides for additional peace of mind not available otherwise.

Labor waiver would not apply to the following: compressors, condenser / evaporator coils, and heat exchangers.

For service calls provided outside normal working hours, the KCC Energy Savings Maintenance Plan customer would only pay *the difference between regular and overtime rates*. This customer would still realize savings associated with the plan.

See complete terms and conditions on reverse side.
